**PHOENIX Process Equipment Co.  
Introduces The  
PHOENIX OPTIMIZE™ Program**

PHOENIX Process Equipment Co., Louisville, Kentucky, is introducing the PHOENIX OPTIMIZE™ effluent treatment and fines refuse process evaluation program.

With over 20 years of experience supplying waste fines slurry sedimentation thickening, water clarification, and dewatering technologies, PHOENIX is bringing its experience and analytical resources together to offer producers a comprehensive process review and assessment that provides best practice recommendations.

The custom tailored program offers the following services:

- Plant Flow Sheet Evaluation
- Refuse Material Sampling
- Laboratory Material Analysis
- Mass Balance Evaluation
- Water Quality Analysis
- Equipment Operation and Maintenance Recommendations
- Polymer Selection and Usage Analysis
- Refuse Handleability Evaluation
- On Site Pilot Studies

The OPTIMIZE program provides specific, detailed recommendations to reduce operational costs, optimize system performance and improve equipment reliability.

PHOENIX Process Equipment Co., Louisville, Kentucky USA, is a leading global supplier of systems for separation, classification, thickening and dewatering minerals slurries and for dewatering sludge from industrial and municipal wastewater treatment systems.
