PHOENIX Announces New Thickening and Dewatering Brochure

PHOENIX Process Equipment Co., of Louisville, Kentucky, announces the publication of its new Thickening and Dewatering Brochure.

The brochure includes a comprehensive summary of PHOENIX's entire line of gravity belt thickeners and belt presses. The complete brochure is available by mail or email.

PHOENIX Process Equipment Co. is a leading global supplier of systems for separation, classification, thickening and dewatering dredged sediments and minerals slurries and for dewatering sludge from industrial and municipal wastewater treatment systems.
